
HAZMAT TANK™

CONTAINMENT FOR HAZARDOUS MATERIALS

SEI INDUSTRIES

Designed to meet the most rigorous demands of today's safety personnel, the Hazmat Tank is your solution to problems associated with remote spills and inadequate temporary containment. This lightweight portable tank can be quickly setup anywhere to store hazardous liquids.

DESIGN FEATURES

- Self-supporting, no frame or parts to assemble
- Collapsible for compact storage and shipping
- Durable, mold and mildew resistant fabric
- Unique flotation collar, no inflation required

APPLICATIONS

- Mixing tank for dispersants and remediation solutions
- Open top tank for land-based temporary storage of skimmed hazardous materials
- Settling tank for skimming operations

RELATED PRODUCTS

- Mini-Berm™ – compact secondary containment solution
- Insta-Berm (Frame)™ – berm with metal frame
- Ride-Side Berm™ – secondary containment for vehicles
- Drip Defender™ – spill collection pad for vehicles
