

TORRENTULA®

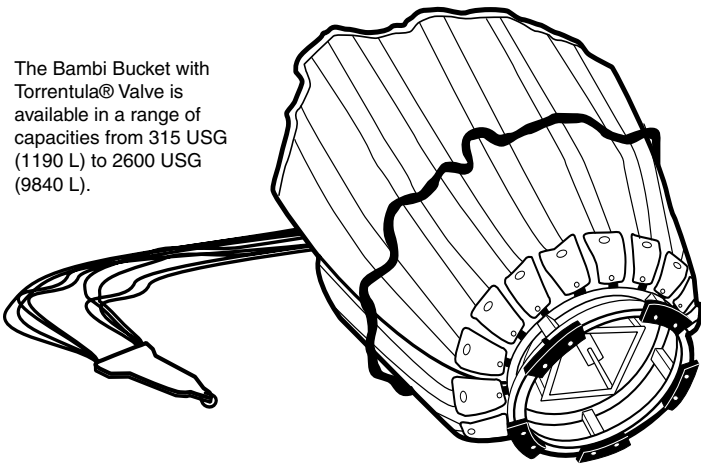

THE POWER AND PRECISION OF **MULTIPLE WATER DROP** CAPABILITY

Multi-drop capability. Increase the control and accuracy of your firefighting with the Torrentula® Valve by SEI Industries. The Torrentula® provides operators with excellent precision in multiple drops and/or variable flow rates – it's the most versatile, innovative valve available. The Torrentula® truly shines when numerous hotspots require quick attacks.

TOP FEATURES

- Multiple Water Drops – each bucket can be unloaded in as many separate drops as the operator requires.
- Shallow Fill Capability – in under two feet of water with multiple powerful 500 GPM (1892 L/min) pumps.
- Variable Flow Rate – fully variable from 0-100%.

The Bambi Bucket with Torrentula® Valve is available in a range of capacities from 315 USG (1190 L) to 2600 USG (9840 L).
