HELI-PUMP SLIMLINE

PORTABLE ELECTRIC AVIATION PUMP

Designed for military special forces and A-Star helicopter operators, the Slimline is a complete turnkey electric aviation fuel pumping system in a tiny package. The Slimline has been designed for rapid deployment and can distribute fuel from SEI Collapsible Terra Tanks, Fuel Easys, Steel Tanks or Drums. It can be powered by the helicopter's DC system and offers two-stage filtration. When not in use, the Slimline Helipump can be easily packed and stored. Ideal for remote site operations and fits inside the cargo area of most helicopters.

FEATURES

1. Small, lightweight package
2. Transportable and storable
3. Complete aviation refueling system

OPTIONS /ACCESSORIES

- Fuel Easy camlock adapter kit
- Electrical plug connection (customer must provide spec)

STANDARD EQUIPMENT LIST

1. 10 USGPM (37 LPM) 24 VDC, 10 AMP electric pump
2. Aviation spin-on filter, meets API/IP 1583 effluent requirements
3. Leak proof hard carrying case with lock
4. 12 ft of 1" discharge hose, with nozzle
5. 12 ft of 1" suction hose with camlocks
6. Mechanical totalizing flow meter (GPM)
7. Camlock connection drum stub
8. 12 ft grounding wire
9. 12 ft of electric cable (connection to battery)
10. Powder-coated aluminum roll cage
11. Water detection paste

APPLICATIONS

- Aviation refueling: Commercial and Military
