

# JUNGLE KING

**SEI**  
INDUSTRIES

Jungle King collapsible tanks are specifically designed for liquid fuel storage in hot, humid, wet climates. They are constructed of high-durability fabric using SEI Industries' proprietary PetroH2Ohesive™. The Jungle King has excellent UV and hydrolysis resistance for a greater life expectancy over any other urethane collapsible fabric tank deployed in the jungle.

With its green camouflage color and vent system to handle flash rainfalls, it is ideally suited for even the most extreme jungle conditions. These tanks combine portability and versatility with economy and are available in a full range of sizes. Additionally, the vent system can be submerged up to 8" to handle flash rainfalls. The Jungle King is ideally suited to even the most extreme jungle conditions.

### **Collapsible tank features**

- Jungle King is certified to CAN/CSA-B837-14;
- 100% RF (Radio Frequency) welded;
- Easy to fold, transport and relocate;
- Requires minimal site preparation;
- Tank continually adjusts to any volume of liquid so that air cannot accumulate, reducing microbiological growth;
- Lightweight, meaning savings on transport costs; and
- Won't rust or corrode like traditional storage tanks or drums.

### **Exclusive to the Jungle King Fabric:**

- Jungle King™ fabric exceeds US military specifications;
- Fuel quality is preserved – extending equipment life and safety;
- Suitable for JP-1, JP-4, JP-8, kerosene and diesel fuels with less than 40% aromatic content; and
- Includes a one-year manufacturer's warranty.

# JUNGLE KING

Jungle King tanks are constructed from a specialized fabric that was purpose-engineered by SEI for above-ground storage of fuels at remote sites in jungle climates. Exclusive Jungle King fabric exceeds US military specifications which provides a number of advantages that ultimately help to preserve fuel quality and extend equipment life and safety.

Jungle King fabric meets the CAN/CSA B-837-14 standard for collapsible fabric storage tanks (bladders).

## Collapsible tank sizes
