

Insta-Berm® (L-Rod)

Guard against toxic spillage with the Insta-Berm (L-Rod), a collapsible, rapidly deployable berm made from chemical-resistant materials.

The Insta-Berm is an easy-to-install environmental safeguard that allows companies to meet today's strict guidelines. Durable and reliable, use the Insta-Berm (L-Rod) virtually anywhere for secondary containment or storage of toxic materials. It meets EPA regulation 40CFR112.7 and Environment Canada Storage Tank Systems for Petroleum Products and Allied Petroleum Products Regulations (SOR/2008-197).

Design Features

- L-rod supported side walls that can fold down easily for vehicle entry and exit;
- Fully collapsible for compact storage and easy transport;
- Instant deployment without any tools;
- Available in a wide range of standard sizes, with custom sizes available upon request;
- Can be easily cleaned, folded and stored for reuse; and
- Includes a drain fitting that can be opened to let out accumulated rainwater or connected to a RainDrain™ or Spill Monkey.

Berm Options

- Groundsheet is recommended to lay between the berm and the ground to protect berm liner;
- Track belting is available to protect the berm from heavy wheel damage;
- High-wind stakes can anchor the berm to the ground through optional eyelet patches; and
- Compatible with an optional RainDrain™ or Spill Monkey filtration system that removes hydrocarbons and additives from captured water through gravity drainage.

Fabric Options

Chem-Shield – Sturdy and abrasion resistant, the Chem-Shield™ fabric is suitable for a variety of chemicals and is cold crack resistant to -34°C.

Arctic-Shield – Certified to CAN/ULC-S668-12, Arctic-Shield™ Lightweight and Heavyweight fabric features chemical and fire resistance properties and is cold crack resistant to -50°C (not suitable for acids). In addition to superior abrasion resistance, Arctic-Shield Heavyweight remains flexible in freezing temperatures making it ideal for set up in the winter.
