

BAMBI BUCKET SACKSAFOAM BLADDER BUCKET MOUNTED FOAM SYSTEM

SEI
INDUSTRIES

The Sacksafoam™ Bladder is a foam injection system designed for the transfer and dispensing of aerial firefighting foam, specifically designed to work in conjunction with the Bambi Bucket.

FEATURES

- Fast and easy installation with prewired connectors
- The touch-screen Sacksafoam Controller delivers an accurate percentage of foam concentrate
- The sack containing the foam concentrate mounts in the Bambi bucket
- An internal check valve stops water from flowing into the sack and insures that foam is dispensed only while the injection pump is operating
