

# ARCTIC KING<sup>®</sup>

COLLAPSIBLE FABRIC PILLOW TANK

The Arctic King collapsible fabric tank is specifically designed for liquid fuel storage in sub-zero climates. Constructed from a proprietary high-durability fabric unique to SEI Industries, the Arctic King has excellent UV and hydrolysis resistance for a longer life expectancy than any other urethane collapsible fabric tank in the arctic.

With all these features plus its vent system to handle deep snowfalls, the Arctic King is ideally suited to even the most extreme arctic conditions.

## COLLAPSIBLE TANK FEATURES

- Arctic King is certified to CAN/CSA-B837-14
- 100% RF (Radio Frequency) welded
- Deployable to -50° F (-46° C)
- Fully collapsible
- Rapidly deployable with minimal ground disturbance
- Easy to fold, transport and relocate
- Requires minimal site preparation
- Lightweight – saves on transport costs
- Won't rust or corrode

## ADVANCED FABRIC FEATURES

- The Arctic King is certified to CAN/CSA-B837-14 - Collapsible Fabric Storage Tanks and meets Environment Canada Storage Tank Systems for Petroleum Products and Allied Petroleum Products Regulations (SOR/2008-197).
- Exclusive Arctic King fabric exceeds US military specifications.
- Tank continually adjusts to any volume of liquid so that air cannot accumulate, reducing microbiological growth.
- Fuel quality is preserved – extending equipment life and safety.
- Suitable for JP-1, JP-4, JP-8, kerosene and diesel fuels with less than 60% aromatic content.
- 1-year manufacturer's warranty.

SEI Industries can supply the Arctic King as a stand-alone product or as part of a complete turnkey arctic fuel system:

- Primary storage tank with arctic vent and fill/drain connections
- Secondary containment berm
- Rainwater filter system
- Fuel transfer, metering and filtration equipment

CERTIFIED TO CAN/CSA-B837-14
