

DESERT KING™

COLLAPSIBLE FABRIC PILLOW TANK

The Desert King collapsible tank was specifically designed for liquid fuel storage in desert environments. Constructed from a proprietary high-durability fabric unique to SEI Industries, the Desert King has excellent UV and high temperature resistance for a longer life expectancy than any other urethane collapsible fabric tank for the desert.

With all these features, the Desert King is ideally suited for even the most challenging desert conditions and is available in a full range of sizes from 250 to 30,000 USG and larger, if required.

COLLAPSIBLE TANK FEATURES

- Desert King is certified to the CAN/CSA-B837-14 Collapsible Fabric Storage Tanks standard
- 100% RF (Radio Frequency) welded
- Fully collapsible
- Rapidly deployable
- Easy to fold, transport and relocate
- Requires minimal site preparation
- Lightweight – saves on transport costs
- Won't rust or corrode

ADVANCED FABRIC FEATURES

- Exclusive Desert King fabric exceeds US military specifications
- Tank continually adjusts to any volume of liquid so that air cannot accumulate, reducing microbiological growth
- Fuel quality is preserved – extending equipment life and safety
- Suitable for JP-1, JP-4, JP-8, kerosene, diesel and gasoline fuels with less than 60% aromatic content
- 1-year manufacturer's warranty

SEI Industries can supply the Desert King as a stand-alone product or as part of a complete turnkey desert fuel system:

- Primary storage tank with desert vent
- Secondary containment berm
- Rainwater filter system
- Fuel transfer, metering and filtration equipment
- SunShades

CERTIFIED TO CAN/CSA-B837-14

DESERT KING

Desert King tank fill/drain vent.

Each Desert King Tank comes with test strips to verify on-going tank condition.

The Desert King is certified to CAN/CSA-B837-14 - Collapsible Fabric Storage Tanks and meets Environment Canada Storage Tank Systems for Petroleum Products and Allied Petroleum Products Regulations (SOR/2008-197).
