

### **Radio Frequency Welder Operator**

This position requires the individual to have good communication skills. The individual will need to work both independently and as a team member in paired welding operation requirements depending on products being manufactured.

### **Duties include but are not limited to...**

- The movement and radio frequency welding of heavy weight urethane fabrics. This may be required individually or with a teamed partner.
- The movement and packing of large fabric products.
- Light assembly of metallic fittings.
- Operation of grommet installation equipment.
- Silk screen applications.
- Use of adhesives and mild cleaning agents.
- Some confined space work may be required.
- Some general labour.

### **Requirements**

- Must show proof of full vaccination for COVID 19
- Grade 12 or equivalent education
- Ability to occasionally lift 50 – 70 lbs
- Prefer experience with fabric welding (Hot air and/or radio frequency type)
- Good communication skills.
- Good organization skills.
- Ability to read engineering drawings.
- Good quality in workmanship.
- Willing to work shifts (Days: Mon – Thurs 7:00 a.m. to 5:30 p.m. or 6:00 a.m. to 4:30 p.m. or nights 5:15 p.m. to 3:45 a.m.)
